MOCK UPS

Synthesized thru web team discussions

Leadership Team Meeting: 10/28/2013

Jesse Woo

RCSB front end developer

Context

- Within web team, members summarized elements they “liked” and “disliked” of regularly visited sites and members created “imagined” mockups of the RCSB PDB.
- These hi-fi designs are inspired from the team’s feedback and discussions.

- The hi-fi mockups presented are not final.
- Much discussion still needs to happen.

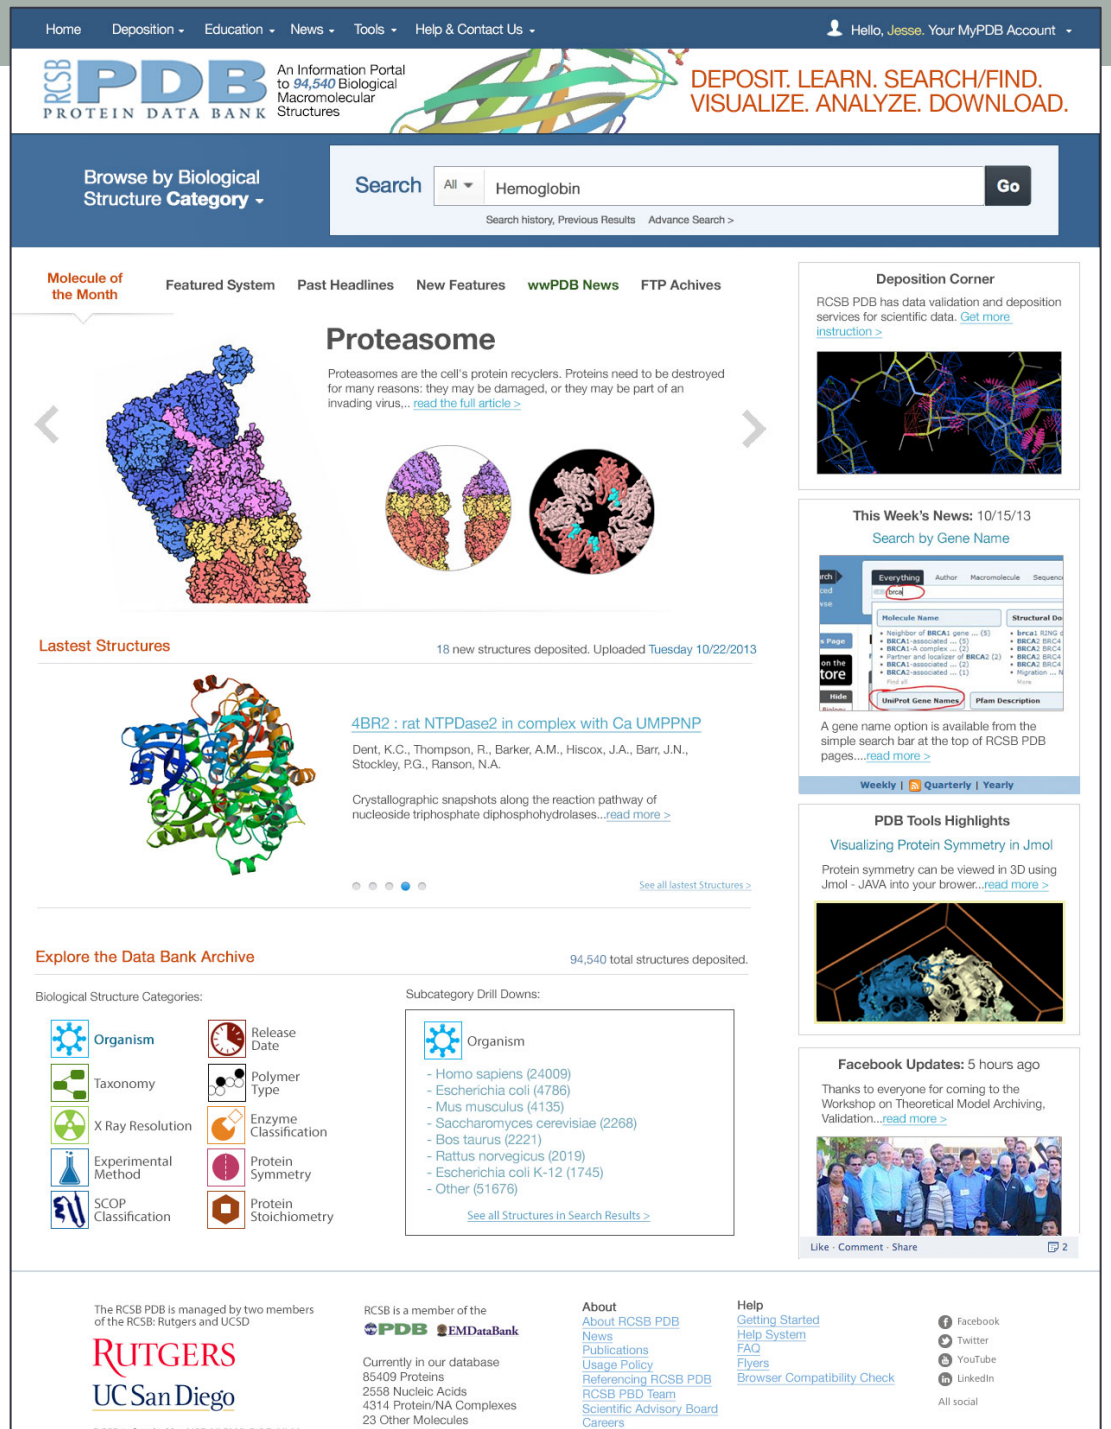
- There are **FOUR** designs.
- You might like certain elements from design A & like other elements in design B.
- “**Pick and Choose**” process.
- Specific Web content will be defined/updated later with help from our outreach team.
- Please focus on the following: layout, information architecture, meeting goals.

- On to the **FOUR** design mockups…

Mockup 1

E-Commerce

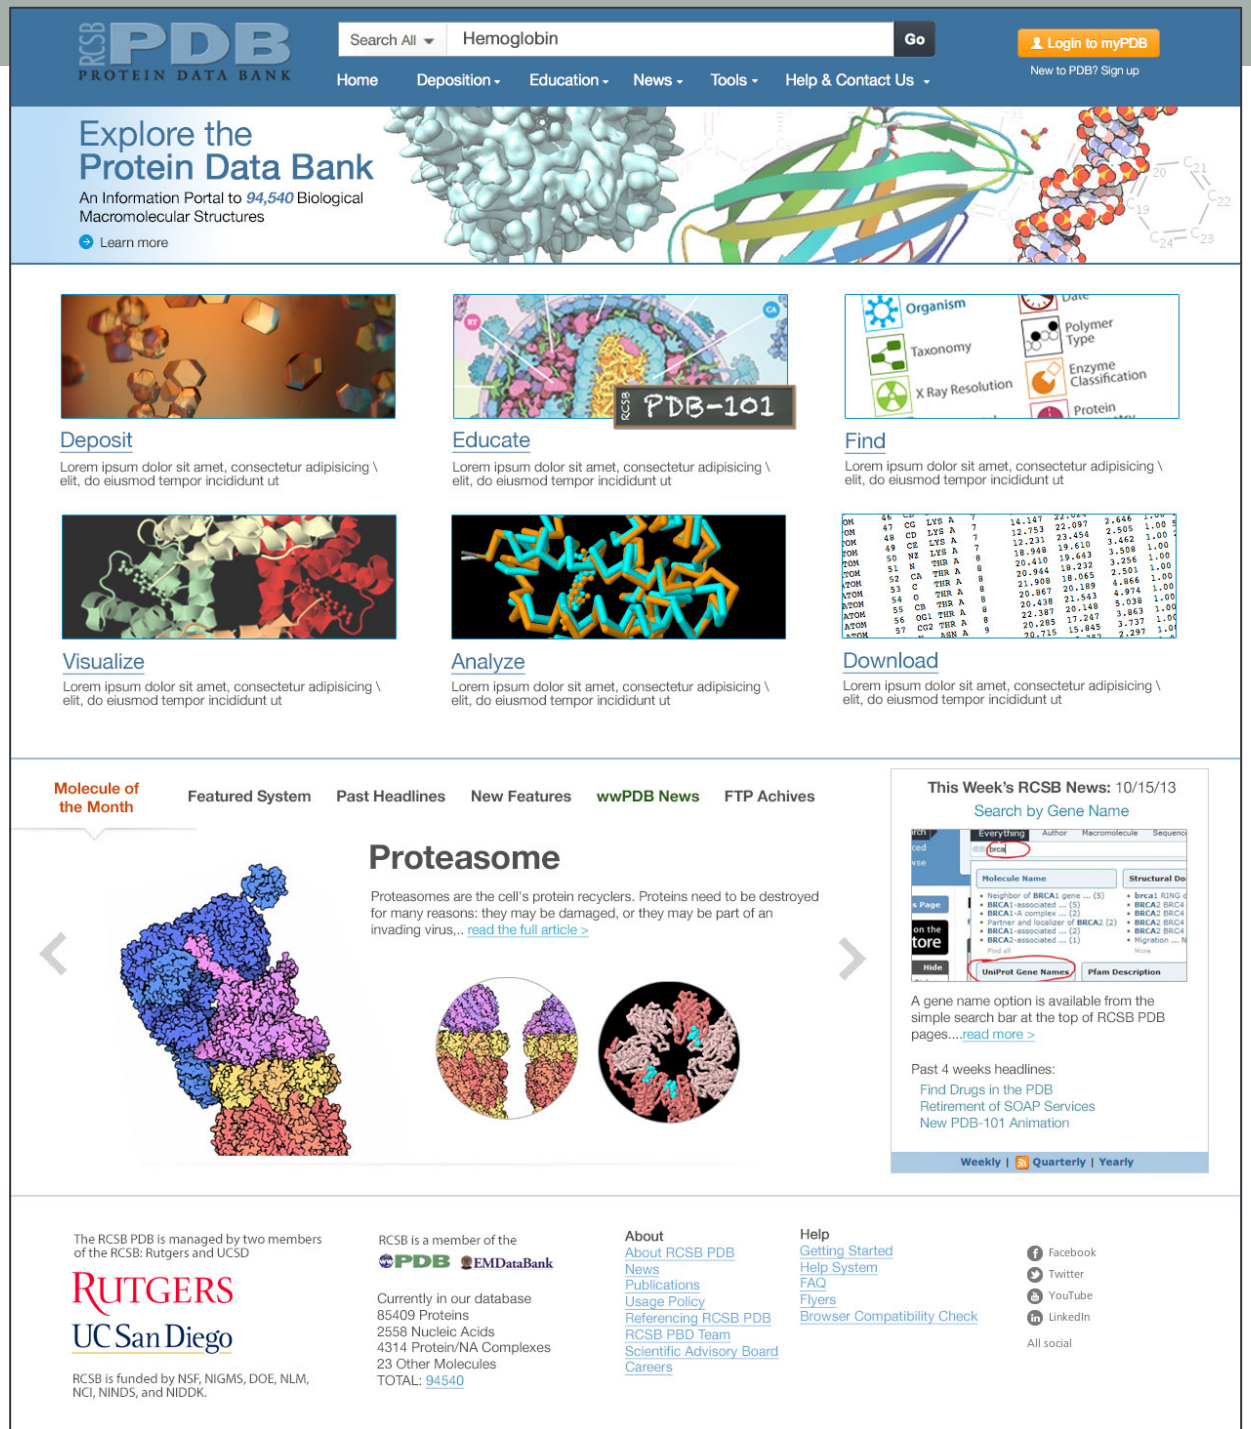
- Top bar navigation *(All)*
- Deposition is prominent
- Inspired by Amazon and other E-commerce sites – two column layout *(EP, AP, CZ)*
- Carousel to display different features, information located in one area. Just enough moving content (MG)
- Explore section: new icons replace “pie charts”, clarity
- Larger images to entice users to explore, bring about interest
- Web content similar to what we currently have, but ordered, giving boundaries and structure.



Mockup 2

Compact Header / 6 Actions

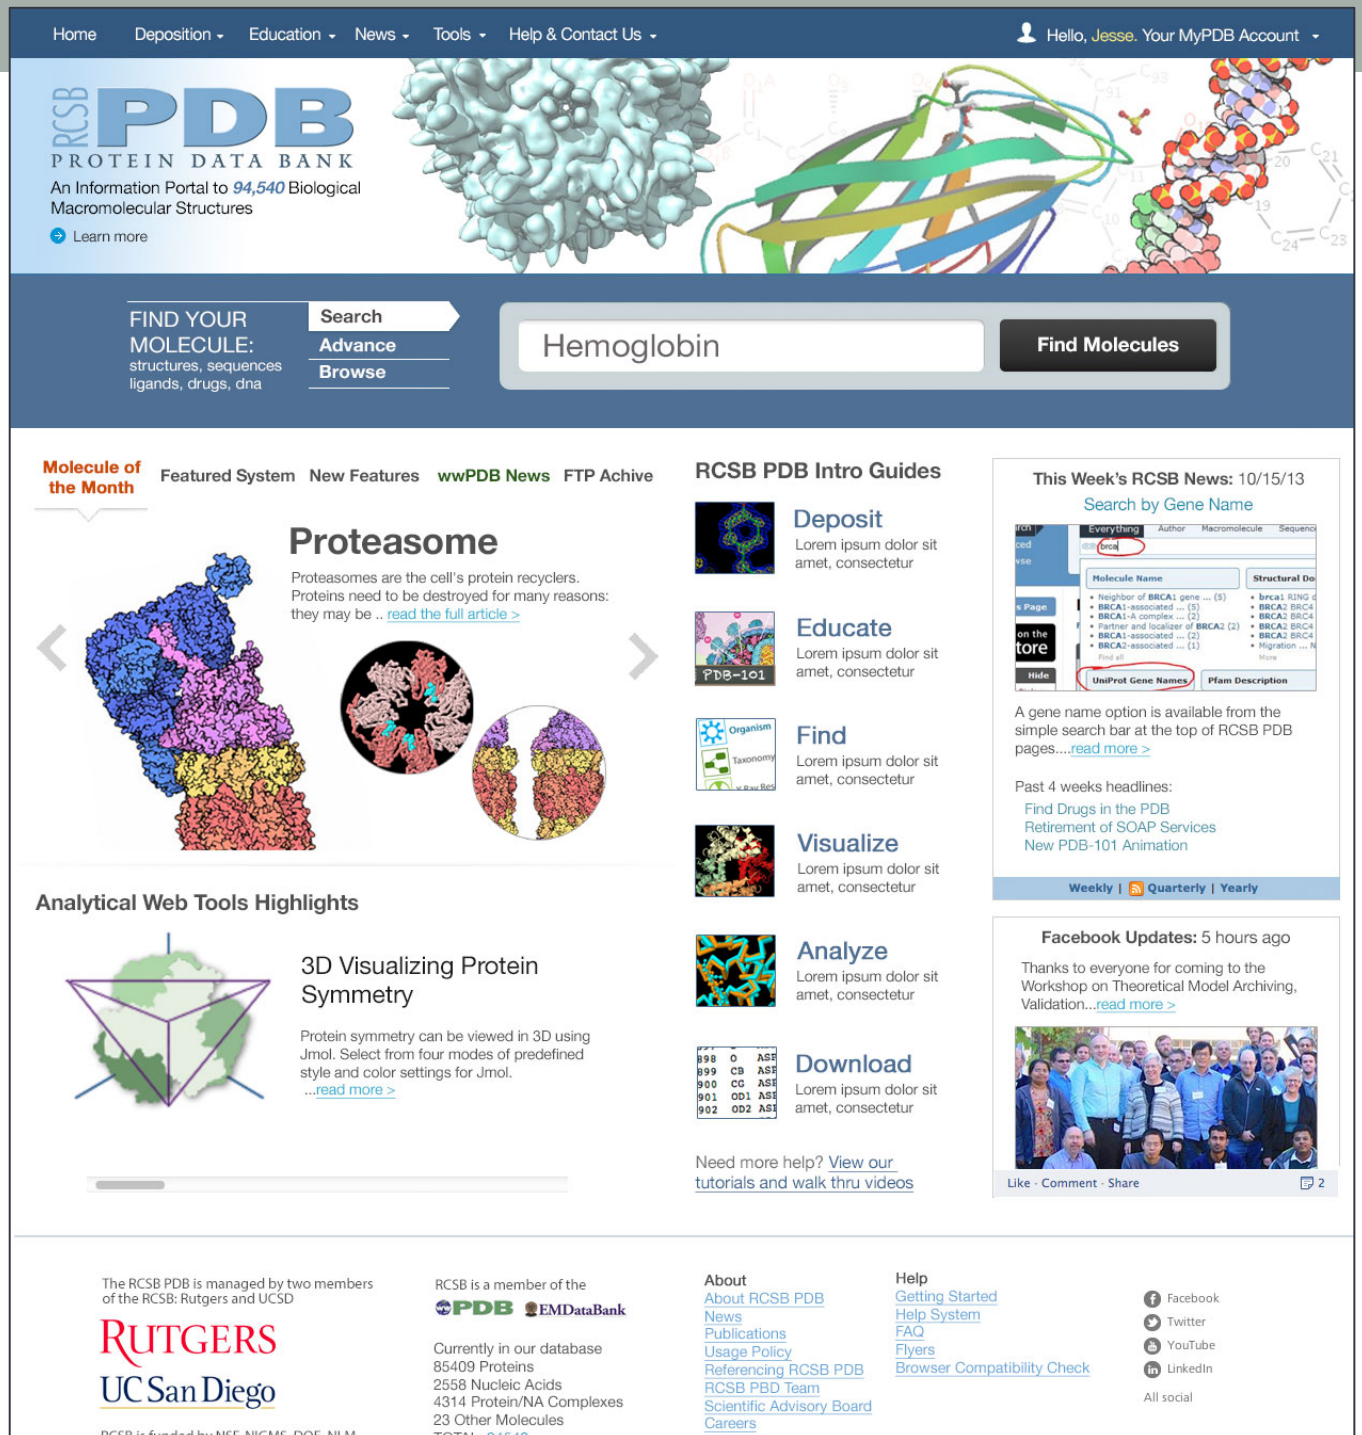
- Compact navigation and search bar *(PR)*
- Layout with 6 top actions sections that leads to HUB pages (MZ, MG, PR)
- “Bold” buttons guiding user to core functions of the site (PR)
- Responsive site (PR)



Mockup 3

3 Content Columns

- Top bar navigation *(All)*
- Search bar is prominent *(AP)*
- Three column that has features, 6 actions for targeted users, and dynamic content



Mockup 4
Large Masthead

- Top bar navigation (all)
- Banner to show all structures PDB has in databank (PR)
- Large images like marketing sites *(CZ)*
- Search bar inside the banner *(CZ)*
- No special plugins, no flash, no startup videos
- Carousel will start based on user clicking on thumbnails *(EP)*

OPEN DISCUSSION

Next steps…

EXTRA

Secondary & Tertiary Pages

Mockup v1

Browse Fly out window

- Browser fly out window useful for users who are new to our site, don't know exactly what molecule to look for – similar to Amazon *(CZ, AP)*

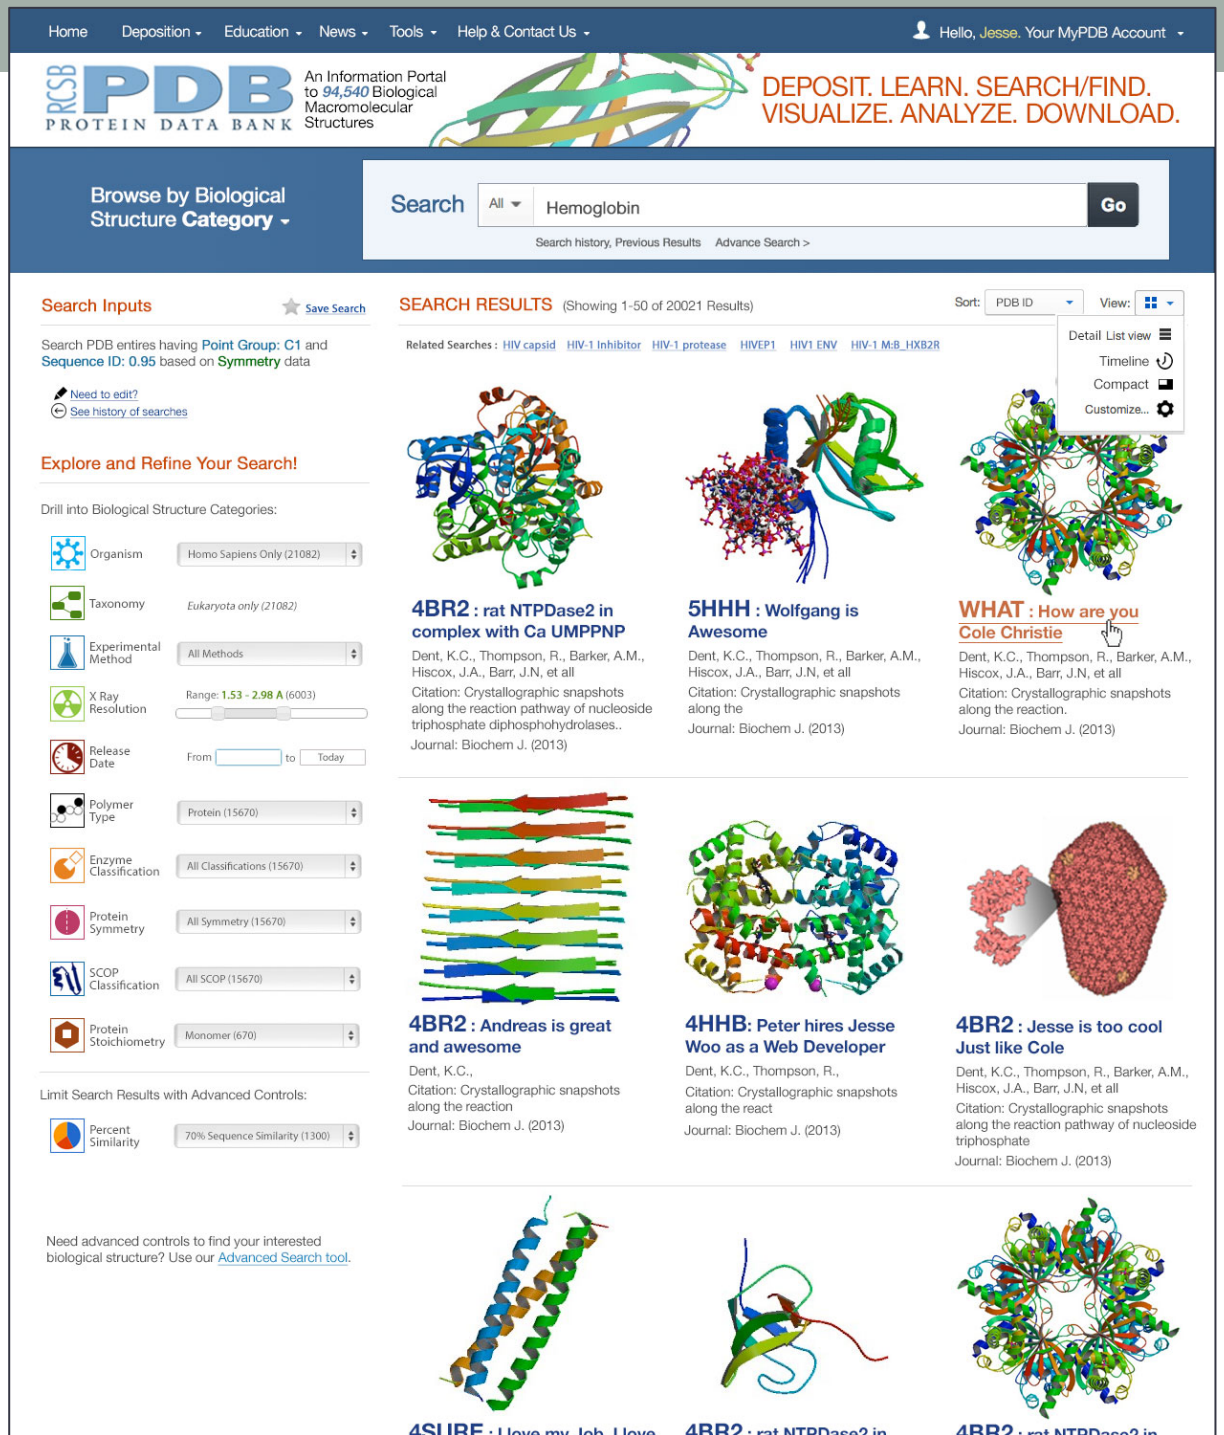
Mockup v1

Search Results Page

- Left hand section used to filter search results similar to Amazon, J.Crew, Zappos *(MZ, CZ, AP)*
- Given the long list of search results, results half will scroll while filtering half is locked in placed (MG)



Mockup v1

Structure Summary Page

- Structure Summary Pages similar to the product pages of E-commerce sites like Amazon, Zappos *(CZ, AP)*

4HHB : THE CRYSTAL STRUCTURE OF HUMAN DEOXYHAEMOGLOBIN AT 1.74 ANGSTROMS RESOLUTION

Primary Citation

Authors: Fermi G, Perutz, MF, Shaanan B, Fourme, R, Woo, J

Abstract: The structure of human deoxyhaemoglobin was refined at 1.74 A resolution using data collected on film at room temperature from a synchrotron X-ray source. The crystallographic R-factor is 16.0%. The estimated error in atomic positions is 0.1 A overall, 0.14.....read more >

PDB Deposition Summary

Authors: Fermi, G, Perfutz MF
First Deposited: 3-7-1982
Release Date: 7-17-1983
Last Modified: 7-03-2011
Previous Version: 1HHB

View Revision History

Molecular Description

Classification: Oxygen Transport
Structure Weight: 64737.73

Polymer: 1
Type: Protein
Length: 141

Organism Homo Sapien
Gene Name: HBA1 HBA2
UniProtKB: P69905

Protein Chains: Alpha Chains:, A, C
